

GRANT EVALUATION SERVICES

Looking for a Grant Evaluator? Hanover Research's evaluation solutions offer the opportunity to critically assess the outcomes, impact, and effectiveness of grant-funded initiatives. Our range of methodologies can be leveraged across the program lifecycle, from the evaluation plan creation through to program implementation and completion.

AVAILABLE SERVICES

EVALUATION PLAN

- ✓ **Consultation** regarding evaluation needs and data requirements for the proposed grant project;
- ✓ Creation of an **evaluation plan** to include in grant proposal based on Hanover's methodological capabilities and evaluation timeframe.

NEEDS ASSESSMENT

- ✓ **Program Inventory & Initial Assessment** to gather and assess current needs for programs and conduct initial analysis.
- ✓ **Logic Model Creation** to align key project needs to proposed activities, outputs, and outcomes.

FORMATIVE EVALUATION

- ✓ **Fidelity of Implementation Survey** to collect perceptions of program implementation and obtain feedback on how to improve implementation fidelity.
- ✓ **In-Depth Interviews** based on findings of the above survey to further comprehend faculty, staff, and student perceptions of program evaluation and implementation fidelity.
- ✓ **Performance Report** with metrics across specified time intervals to track progress and allow for changes to be made as needed.
- ✓ **Focus Groups** to gather feedback from specified stakeholders and better understand effectiveness of program/initiative and review continuous improvement suggestions.

SUMMATIVE EVALUATION

- ✓ **Program Evaluation Data Analysis** of various metrics that determine whether programs meet specified expectations.
- ✓ **Program Evaluation Capstone** with summary of recommendations and key findings from the above studies.
